

Highland Park Happenings

April 2021

Principal's Corner

Happy April Royals!!

It's been a rainy April but remember, "April showers bring May flowers"!

As we hit the homestretch and start the last quarter of the school year, stay strong and continue to show your royal resiliency!

Air hugs!
Mrs. DeVito

Highland Park Events

Grade 4

MAY

5/28 & 5/31 - No School

Inside the Classroom

First grade celebrated Social Emotional Learning day by getting comfortable and wearing our pajamas to school! We practiced our breathing exercises, yoga, and even tried out our calming glitter water bottles!

Second grade friends got to enjoy some hands on word work activities by spelling their words with Play Dough!

Third grade began our 5th Reading Module of the Year on Teamwork! In this module, we will learn about the importance of teamwork and using individuals skills and techniques to benefit our "team." We are learning that teamwork is not only relevant in sports, but also in our homes, community and classrooms! If we work together, things run smoothly!

Fourth grade students were welcomed back into the classroom for the first time since last March! Students had the opportunity to meet their classmates in person and explore their classroom. Our students were able to explore the third floor for the first time!

Read Across America

This school year, Highland Park celebrated Read Across America by reading diverse and inclusive books so that ALL students could see themselves reflected in a book. Students participated in different dress up theme days!

Mr. L's Corner

This month Mr. L is working with students on developing and practicing the skill of showing compassion. Compassion is when you see someone in need, care about their feelings, and do something to show you care. We used the Everfi Program, which brings real world learning into the classroom and helps students with the social emotional skills they need for success. Showing compassion is a great way to end Bullying, which we are working hard to do at Highland Park.
