

Highland Park Happenings

November 2019

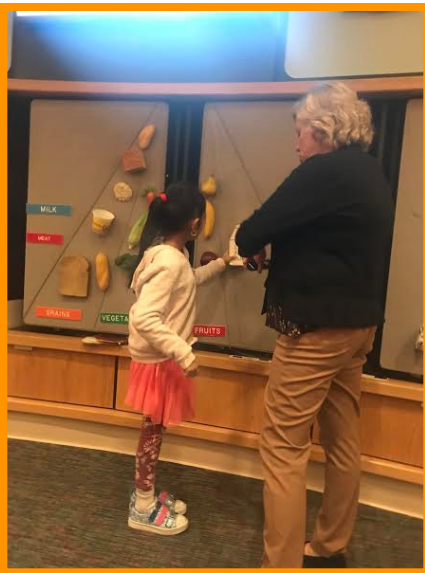

FALL FESTIVAL

Students had a wonderful time dressing up and parading through the building for the fall festival. Even the teachers got into the spirit and dressed up as well!

First Grade went to Sugartown Strawberry Farm on a field trip. Farmer Bob showed us his honeybee colony and taught us how they help plants grow. We went on a hayride and got to pick our very own pumpkin to take home with us! We also went in a hay maze and had to find our way through it. It was tricky but we all were able to figure it out!

Second Grade students went to Lankenau Hospital and learned about the food groups and how to integrate them into our daily routine for a healthy lifestyle!

In the beginning of November, Third Grade welcomed the introduction of our sensory hallway thanks to the support of the Upper Darby Arts and Education Association.

The students in 4th Grade at Highland Park went to the Natural Lands Saunders Woods for their field trip. While at Saunders Woods, students were able to explore a forest, stream and a meadow. They were able to learn about the habitats and ecosystems.

The fifth grade had a field trip to the Philadelphia Museum of Art in late October. Under the direction of a Museum Educator, they explored different exhibits throughout the museum and saw many different artifacts from around the world! They were able to use handy fold-up stools to sit and admire the artwork. The exhibits included armor from various time periods, a Chinese structure that was rebuilt in the museum, statues, and much more. The students were able to reflect upon the artwork in notebooks that they then took home as a souvenir. It was a great field trip!

STUDENT OF THE MONTH

For the month of October, teachers chose a student from their class that showed Trustworthiness throughout the entire month! Teachers are keeping an eye out for which students are displaying our November trait of Respect!
