EXPLORING THE MOON AND ASTEROIDS

Upper Darby High School's Lunar Planetary students completed the Moon 101 and Asteroid 101 courses from NASA's program, "Exploring the Moon and Asteroids for Secondary Students." They were then tasked with viewing six images of the Moon and several asteroids, then asked to identify features and to deduce how and in which order the features formed.

The students presented their findings and fielded questions from Christine Shupla of NASA's Lunar Planetary Institute in order to qualify for the next round of the program, where they will conduct original research under the guidance of Dr. Caitlin Ahrens of NASA Goddard!

KENT PARK CLEANUP

Science National Honor Society students Natalie Keller, Raiden Louanphom, and Emma Scialabba helping keep our community clean.

WORLD CLASS DEBATERS

Upper Darby High School Freshmen, Micah Freeman-Stephens & Rayan Hansali, were recognized by the World Affairs Council of Philadelphia for their outstanding contributions in the October Debate Series discussion of the topic: Should the US take an isolationist or an internationalist approach to the Covid pandemic? Micah was awarded an Honorable Mention, while Rayan was awarded Outstanding Student Debater! Congratulations to these amazing teen orators!

HAPPY BIRTHDAY, MRS. SIMONE!

Senior class officers surprise Mrs. Simone on her birthday!

HAPPY HALLOWEEN FROM UDHS

The UDHS faculty were asked to decide which costumes Administrators should wear and the votes came in: Pro Wrestlers!

SPECIAL PROGRAMS RETURN TO SCHOOL

Staff at Upper Darby High School were excited for the return of students in special programs for their first in-person day of the school year!

Happy Thanksgiving

Look for our Virtual Homecoming Court on 11/25/20.

More details to come!
