Mr. Kearns   Math HW   # 11   Date Issued_____   Due Date_____

Solve each of the problems below WITHOUT a calculator. Show your work!!!

1. **Find average of 50,60, 70**   2. **Find average of 20,30,40,50, and 60**

Round to the nearest thousandth	Write the deimals as fractions- (reduce)	
12.096345		
100.9999999	**.006**	**.34**
87.01292		
	.8	**.05**

Define and provide an example of the following terms.

Unit Rate

-

PSSA Question- Underline important info and show your work.

Hamza bought 12 sodas for $10. Taelin bought 15 sodas for $12. Miguel bought 32 sodas for $28.00.   Who paid less per soda?

If each sold ALL their sodas for a $1.50 each. How much profit did each kid make?

On the back:

Create a word problem in which you have to use distance over time to solve that compares two runners that run different distances.
