

Name _____ Math HW # 19
Date Issued _____ Due Date _____

Use the distributive property then combine like terms

$$5(4d - 6) - 19d + 2$$

$$-2(9r - 2) - 2r + 7$$

Solve each equations

$$F - 9 = 120$$

$$W + 1.4 = 59$$

$$m / -2 = 6$$

$$-7x = 56$$

Find K

x	3	6	9	12
y	12	24	36	48

PSSA Question- Underline important info and show your work.

Yellianis bought a hat for 40.00 and she had a 30% off coupon. Marrilyn bought a the same hat for 45.00 and she had a 35% off coupon. Who paid more for the hat?

On the back:

Create 4 equations(+,-,x and /) on the back and solve
