Studies and Testing

- Geotechnical Testing
 - Holes are drilled to test soil condition and quality
- Environmental Testing
 - Site materials tested for any possible contamination
 - Clean Fill certification
- Utility Location

Construction Plan

- Security fencing around construction
- Onsite security and surveillance
- All construction activity & contractor parking will be onsite.
- Possible off-site staging and contractor parking to minimize impact on the neighborhood.

Park & Open Space Plan

- **Spring 2023 to Spring 2024**
Entire site utilized for construction
- **Summer 2024** Playground ready
- **Fall 2024** Seed open field area
- **Spring 2025** Park complete
- **Summer 2025** Project completed

Safe Recreation Area & Safety

- Upper Darby School District to work with Upper Darby Township and Upper Darby Police Department.
- School community activity will increase at the site which will passively increase visual surveillance.
- Create a visually open recreation area to also increase passive surveillance.

Traffic Study & On-Site Parking

- Traffic - A Traffic Study will be conducted during design of the project.
- Primarily walking school
- Number of Buses serving the Elementary School
- Adequate On-Site Parking Provided for Staff and Visitors.

A detailed street map of the Stonehurst area in St. Louis. A red dot marks the 'Proposed (Cardington)' location, situated east of the 69th Transportation Center and south of the Millbourne Station. The map shows a network of streets including W Chester Pike, Market St, and various local roads like S 63rd St and S 62nd St. Green areas represent parks, including Cobbs Creek Park. The map also shows the Mississippi River to the east and the 69th Transportation Center to the west.

Community Input

- Opportunities for input:
 - Cardington Listening Session #1 2/11 at 6:30
