## Old Standard

Crowded, Error-Prone  
Security Lines

## New Standard

Touchless Weapons Detection  
at the Pace of Life

**Evolv Express®**

**The New standard in Weapons Detection**

# Detect Weapons and Reduce Noise

---

## Touchless Security Screening **Evolv Express®**

- Detects weapons and ignores harmless items
- Touchless walk-through with bags and pocket contents intact
- Frictionless flow up to 10X faster and up to 70% less cost
- Security-as-a-service subscription pricing

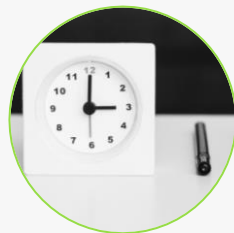

Cloud-Connected Digital Platform

# Evolv Express<sup>®</sup> Powered by Evolv Cortex AI<sup>™</sup> Software

## Targeted searches

Guards see a real-time image on a screen showing precisely where the potential threat is in a bag or on a person's body.

## Smarter over time

Become more intelligent over time as new threat profiles are discovered.

## Integrations

Connections to turnstiles, SOC and security infrastructure to improve situational awareness.

Powerful Self-Service  
Analytics Dashboard

# Introducing Evolv Insights

- Easily access and visualize your security screening system performance, visitor flow, event type details, location specific performance and more.
- Self-serve Dashboards include Performance Summary, Alert and Timeline Analysis, Visitor Arrival Analysis and Detection Setting Analysis.

Integration-Ready  
High-Resolution Imagery

# Situational Awareness Cameras

## Benefits

### Improved Situation Awareness

See visitors enter, monitor general flow and the screening process and resolution for an overall improved venue security posture.

### Capture Front-On-View of Visitor

With cameras situated at approximately 72" high you can achieve an ideal capture of front-on-views of your visitors as well as those leaving the screening area.

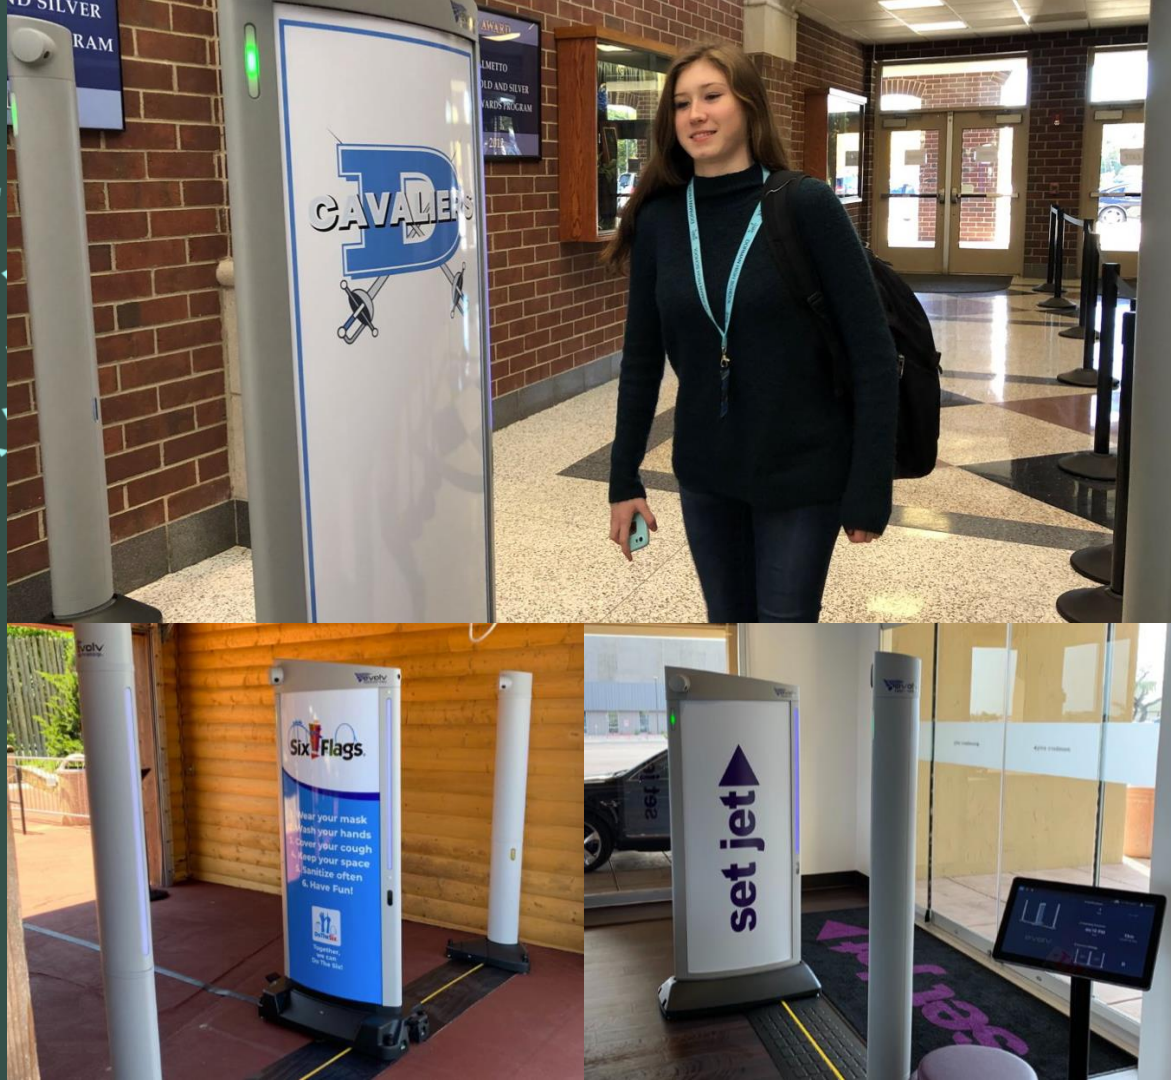

### Easy SOC Integrations

Easily integrates into security operations center, video management system (VMS), and other AI video analytics systems.

# Branding Opportunity: Evolv Express® Custom Graphics Panels

evolv

# The New Standard in Weapons Detection Evolv Express®

## More Weapons Found

Reliably detects weapons with fewer false alarms so staff can focus on real threats

## Superior Visitor Experience

Touchlessly screens up to 3,600 visitors per hour as they walk through without stopping.

## Reduced Operating Costs

Use up to 70% fewer security staff per entrance.

## Gain Operational Insights

Use digital analytics to understand alarm rates, threat types, arrival curves, and more.

# Thank you
