Custodial Parent Information and Notification

(If Applicable)

A child of separated or divorced parents, one of whom lives outside the District, may attend District schools without payment of tuition if the child(ren) lives within the District at least one-half of the time during the school term. Otherwise, such children shall only be permitted to attend District schools to the extent required by law.

Notification (If Applicable)

I will notify the School District if my child(ren) reside outside of Upper Darby School District for more than 50% of the year (January – December)

I will notify the School District if a change in physical custody resulting in a residence out of the School District occurs. If it is determined that my child(ren) attended the School District without being eligible, the School District may pursue nonresident tuition, attorney's fees and other costs associated with any legal proceedings.

The Upper Darby School District will allow divorced/separated parents equal access to their child(ren) unless a court order or consent agreement regarding custody prevents this and the School District has a copy of the court order. If such a document is provided to us, the School District is required to follow the terms of the court order specifically.
