

How to Get to Schoology on Different Devices

Google Account Credentials (which are used to log into Schoology)

Username/Gmail: ID@student.upperdarbysd.org

Password: their password given by the district (letters are in caps)

There are different directions for logging in depending on the type of device you are using:

To log into Schoology on a **UDSD Chromebook**,

- First log into the Chromebook by entering just the Student ID # and student's password
 - Note: all letters in the passwords need to be capitalized
- Go to udsd.schoology.org **or** go to our website (upperdarbysd.org/), then click on Students > Schoology for Students
- You might see the Google Sign in screen. If so, select the UD student Google account.

To log into Schoology on a **computer or own personal Chromebook**,

1. Go to our website (upperdarbysd.org/), then click on Students then on Schoology for Students **or** go directly to our Schoology link: udsd.schoology.com.
2. You will see the Google log in screen. Log into your UD Google account:
 - a. Username: ID#@[student.upperdarbysd.org](mailto:ID@student.upperdarbysd.org)
 - b. Password: Use your Google password (same one you use to log into a Chromebook)
 - * Grades K-2: Passwords are their birthday in this format: mmddyyyy
 - * Grades 3-12: Passwords are randomly generated and any letters should be capitalized.

If you are using a mobile device, there are two ways to use Schoology:

1. Use the web browser on the device. Use the directions above - same as logging in on a computer. This is your best way to log in. You will be able to do pretty much the same thing you can do on a computer.
2. Using the Schoology app: [use these directions](#). **The Schoology App is lacking in features and functionality. We suggest that on a mobile device that students use their browser (Chrome, Safari) instead of the app!**
