

**Opportunity • Unity • Excellence**

## **January is Attendance Awareness Month**

**Each building will be running initiatives throughout the month (and rest of the year) to encourage our students to attend school each day.**

**Part of this encouragement will be to teach our students the importance of attending school. We will have our teachers teach a lesson with the following learning target:**

**Elementary: I can know why it's important to attend school**

**Secondary: I can attend school daily and be intrinsically motivated to do my best**

**The Student Services office will provide our families with these lessons and other information and statistics concerning the importance of attendance throughout the month of January.**
